

PRODUCT SELECTION, PURCHASING AND SUPPORT

SiePortal: **e-business with ease**

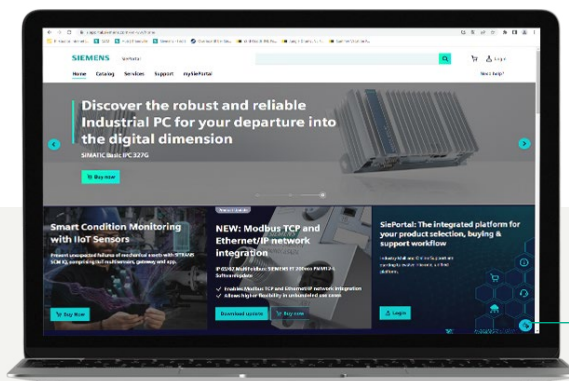

Digitization changes everything, but also opens up completely new possibilities. The best example: SiePortal - our groundbreaking, intuitive and powerful B2B portal for the product, system and service portfolio of Siemens Digital Industries and Smart Infrastructure. Discover the potential of SiePortal, the new hub for your business success.

SIEMENS

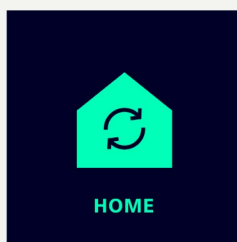

Optimal Customer Experience – **intuitive, inspiring, efficient**

SiePortal brings Industry Mall and Siemens Industry Online Support (SIOS) together under one roof – and is entirely geared towards you and your individual requirements. Even though implementation of the content from Industry Mall and SIOS is in progress, you can, of course, continue to use all of the functionalities of these two previous portals. We will successively integrate functionalities and further develop SiePortal step by step – towards a B2B portal that sets new standards.

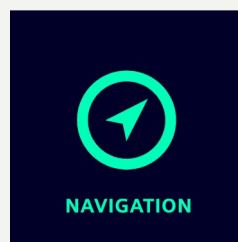

What you can look forward to today:

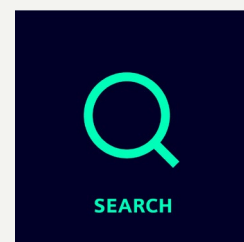

Your opinion matters!

A common homepage for Industry Mall and SIOS – fully responsive and optimized for mobile devices

Improved, user-friendly navigation – uniform throughout the SiePortal

Common consolidated search results from Industry Mall and SIOS – including new search and filter functions

Access SiePortal today and take the next step towards digital transformation with us. Simply use your current login data, which we have migrated along with all existing functionalities. Start your seamless transition to e-business with ease with SiePortal.

P.S. Of course, we welcome your feedback on SiePortal. Let us know about your experience using our new B2B platform.
